

# BEST PRACTICES TO REDUCE WASTE

## LESS PACKAGING = LESS TRASH!

Buy products in bulk or opt for packages made of recyclable materials, thereby avoiding packaging that ends up in the trash bin.

## MAKE DO AND MEND

Before throwing something away that's broken or you don't need (clothes, toys, furniture), try repairing, selling or donating it.

## SAY NO TO SINGLE-USE

Buy long-lasting, high-quality items: your wallet and the planet will thank you.

## OPT FOR SEASONAL, LOCAL INGREDIENTS

they taste great, cost less and are better for the environment. Plus, you'll support the local economy.
